Lips That Wow

Introducing NEW Clinique Quickliner for Lips Intense and Clinique Pop Lip Colour + Primer Shade Extensions

Create lips that wow and become the showstopper of the evening. Combine **NEW Clinique's Quickliner for Lips Intense** and **Clinique Pop Lip Colour + Primer** shade extensions to redefine what it means to have the contoured lip. Introducing **NEW Quickliner for Lips Intense**, a new lip liner that delivers a soft creamy texture and convenient application while providing the most intense colour payoff Clinique has ever offered in a lip pencil. This new formula does double duty by contouring the lip line or extending the wear of your favorite lip colour or gloss.

The Details

The formula for **Quickliner for Lips Intense** is a complex of ingredients coupled with an intense rich colour pigment that delivers a deep colour payoff to create contoured lips. The combination of ingredients in the formula create an instant creamy glide-on feel that provides up to 12 hours of comfortable and durable wear with just one easy stroke.

This water resistant lip liner reduces lipstick feathering and bleeding over time and is presented in colour matched barrels for ease shade selection. A balanced shade range of 6 intense colours that will glam up lips anywhere, anytime.

Plush in a Rush

Quickliner for Lips Intense is a convenient propel mechanical pencil that requires no sharpening. For easy and instant glide-on application, draw two dots on upper lip's bow, a dash across bottom of lower lip, and then connect all three for perfectly contoured lips. To extend lip colour wear, fill in lips with liner and follow up with a matching shade of **Clinique Pop Lip Colour + Primer**, the perfect bold lip look.

More Colour, More Fun

Clinique Pop Lip Colour + Primer is a rich colour lipstick + smoothing primer in one. The longwearing velvety finish lipstick + primer now comes in eight new shades. Have a pop of colour with the newest additions to the **Clinique Pop Lip Colour + Primer**, available in *Bare Pop*, *Papaya Pop*, *Party Pop* and *Sugar Pop*.

NEW Quickliner for Lips Intense and **Clinique Pop Lip Colour + Primer** Shade Extensions are available beginning November 2015 at Clinique Travel Retail locations worldwide. *Shades may vary by location.*

Allergy Tested. 100% Fragrance Free.

What does this mean? First, we formulate without known allergens. Then we allergy test every product 12 times on 600 people. If even one of those 7200 applications incites an allergic reaction, we start over.
